

Pay Pool Administrator Advisory

2014-14

Issue Date: November 10, 2014

Topic: Compensation Management Spreadsheet (CMS) 2014 v3 Posted in Pay Pool Notices

Discussion: Version 3 of the CMS has been released. This version fixed a bug in the CMS that can cause drop downs for scores to be unavailable for some employees. Presumptive employees cannot get scores so their cells for ratings are locked. In version 2, when the CMS is sorted, the locked cells do not sort with the presumptive employee which causes whoever lands on the locked cells after the sort to not have a dropdown list with ratings.

Action: Use the updated CMS v3 found in Pay Pool Notices to facilitate pay pool deliberations going forward. If you did not encounter this error using version 2, then there is no need to do a roundtrip to use the updated spreadsheet. Version 2 has been deleted from Pay Pool Notices.
